

LK-M280D-5T 280KG 600LBS Double Door EM Lock

280KG x 2 | Fail-Safe Design | Dual Voltage | Easy Mounting

Product Overview

Ensure maximum security for double doors with the LK-M280D-5T , a high-performance electromagnetic lock delivering 280KG (600LBS) of holding force per door leaf . This double door magnetic lock is engineered for reliability and safety, featuring a fail-safe operation , durable construction , and compatibility with various types of double doors including wooden, glass, metal, and fireproof doors .

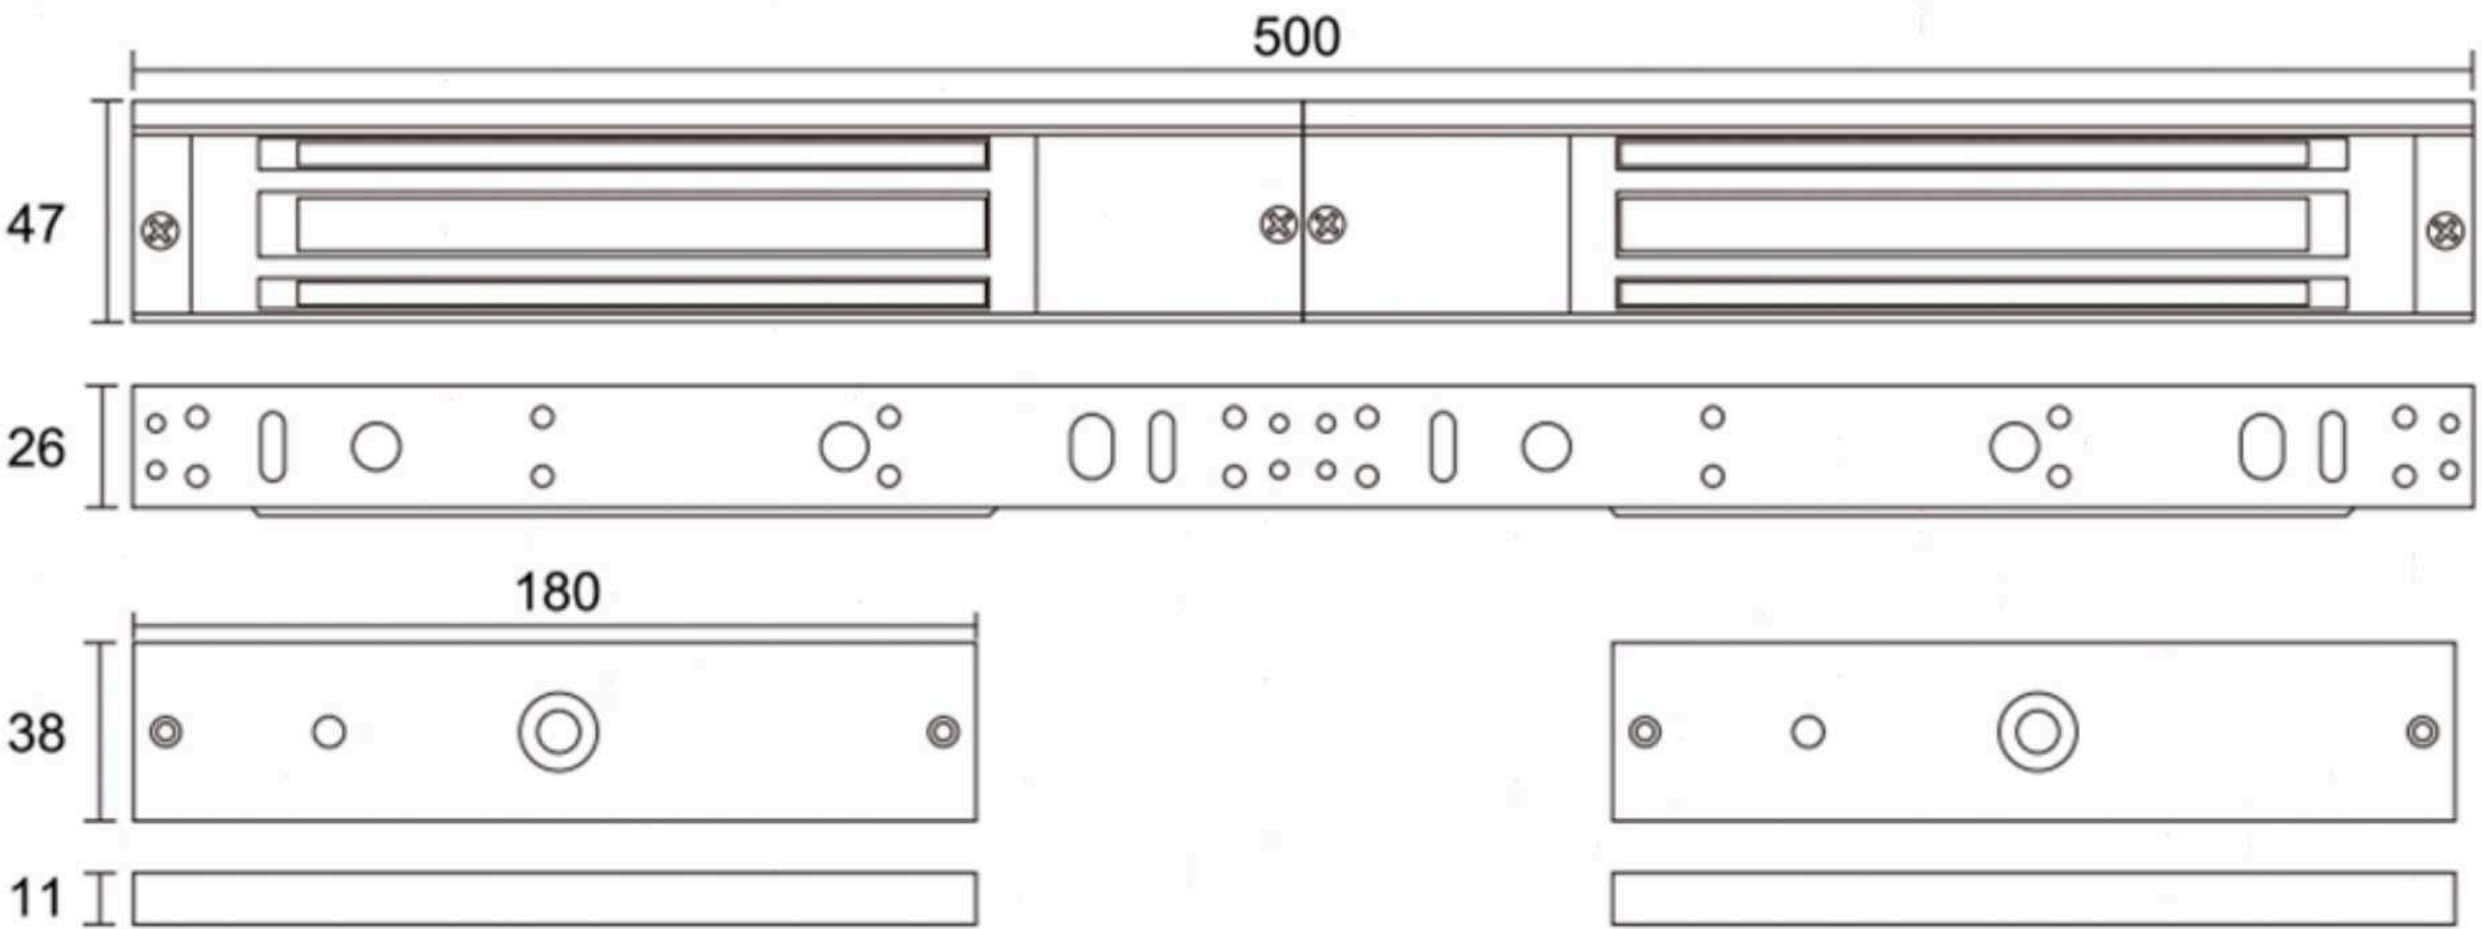

Designed for easy installation and long-term performance, this lock is ideal for commercial, industrial, and residential applications where enhanced access control is essential.

Key Features

- **Powerful Holding Force – 280KG (600LBS) per Door Leaf:** Provides strong and secure locking for both sides of a double door system.
- **Fail-Safe Operation:** Automatically unlocks during power failure to ensure safe egress.
- **Durable Construction with Refined Finish:** Built with high-quality materials and sandblasted surface treatment for improved durability and appearance.
- **Wide Compatibility:** Works effectively with wooden, glass, metal, and fireproof double doors.
- **Easy Installation:** Designed for simple mounting under the top of the door frame.
- **Dual Voltage Operation:** Operates on either DC12V or DC24V , offering flexibility in power supply options.

Holding force	280kg(600Lbs)*2	
Input voltage	DC12V or DC24V	
Current	12V/480mA*2; 24V/240mA*2	
Lock signal	NO	YES
Door signal	NO	NO
Weight	4kg	
Suitable for	Wooden door/Glass door Metal door/Fireproof door	

PREMIUM QUALITY SECURITY
