

LK-U280 Electronic Bolt Lock Bracket – U Type

Stainless Steel Build | Frameless Glass Door Compatibility | 180° Two-Way Opening

Product Overview

The LK-U280 Electronic Bolt Lock Bracket is a high-quality U-shaped mounting bracket designed specifically for use with electric bolt locks . Built to support secure access control systems, this bracket is ideal for installation on fully frameless glass doors with a thickness of 8–15mm .

Constructed from durable stainless steel , the LK-U280 offers long-lasting performance and resistance to wear and corrosion. Its 180-degree two-way opening design allows for flexible door movement while maintaining structural integrity and functionality.

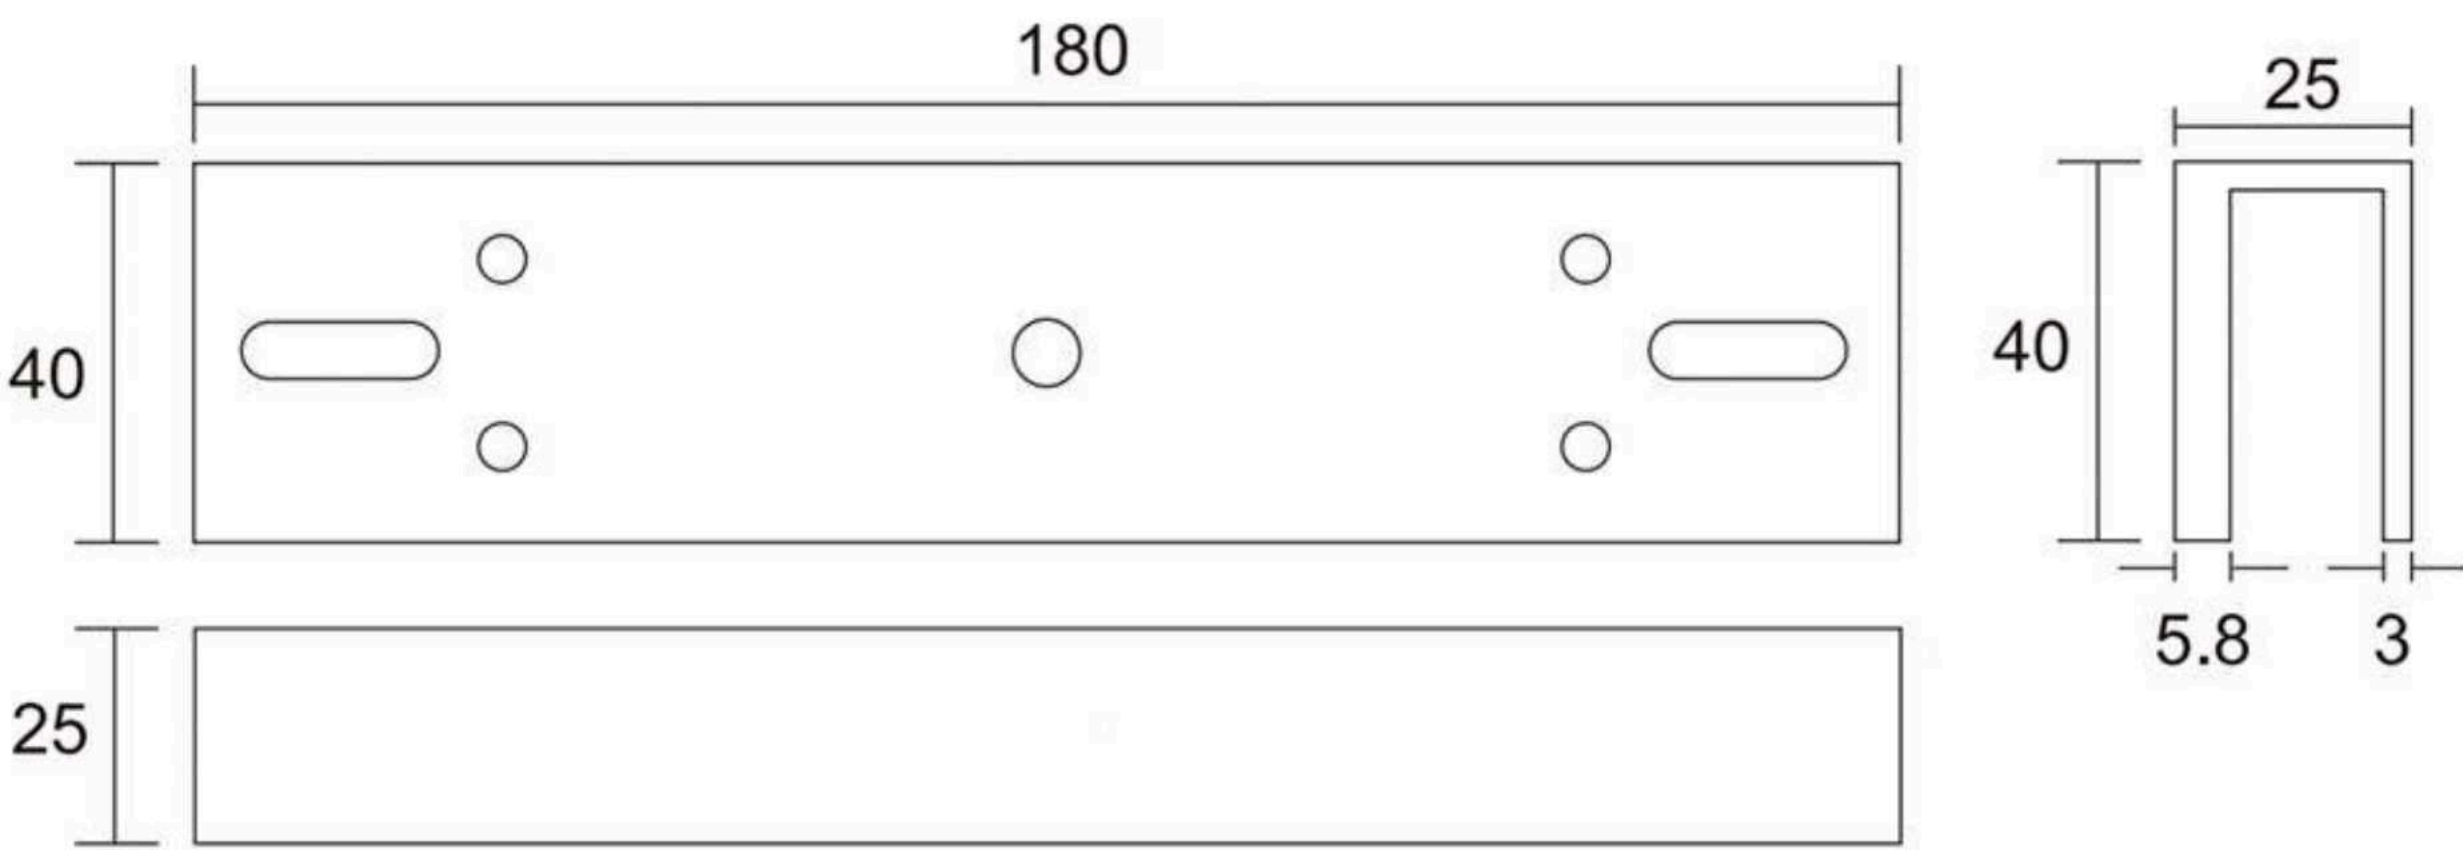

This bracket provides a reliable and clean mounting solution where traditional brackets are not suitable—making it perfect for modern commercial and residential applications featuring minimalist glass door designs.

Key Features

- U-Type Bracket Design: Optimized for electric bolt lock installations.
- Durable Stainless Steel Construction: Ensures strength, stability, and long service life.
- Designed for Frameless Glass Doors: Compatible with glass thicknesses ranging from 8mm to 15mm .
